Petlad, Sep 26, 2018 (Issuewire.com) - Fencing is an elemental part of protection and security in homesteads as well as commercial estates. While residential properties demand both security and cosmetics, factories, warehouses and plants simply require security, of the robust kind in fences. Gurukrupa Wires, a fence manufacturer from Gujrat steps forwards to offer the businesses of India and abroad a select line of fences that are everything one may expect from such products. Already recognized as one of the most sought-after local **chain link fence manufacturers**, Gurukrupa Wires has recently worked its way up to be one of the country's best.

For Gurukrupa, it took only three decades of work to make its way up to the top. Now on its 4th decade in the business, the company has a full line of products that are only industry-grade and export-quality. Its product range is made up of fence solutions and accessories of all types and prices. Concertina wire, razor wire, welded wire mesh, razor fence and woven wire mesh are among its most-sold products. Gurukrupa is ISO 9001:2000 certified, and currently one of the nation's top-notch [Concertina wire manufacturers](#).

In addition to the products named, the company also manufactures galvanized fence, electric fence and crusher wire mesh screen.

Gurukrupa is the sole manufacturer of its products, but on top of that, it is also its supplier, distributor and exporter. The company manages the whole chain of supply and distribution on its own, thus cutting out middlemen and intermediates from the system. This is a policy that only the most prominent **barbed**

wire manufacturers follow to keep their product prices lowdown. Compared to the prohibitive pricing of retailers, Gurukrupa's products are inexpensive and profitable, as far as the price to performance ratio is concerned.

The company's state of the art manufactory in Gujrat is fully equipped to handle huge bulks of operations. It is loaded with all kinds of machinery required to make the products the best of their kinds. In addition to the infrastructure, Gurukrupa Wires also has access to graded raw materials. For most of its products, the company uses industry-standard stainless steel that is both sturdy and protective. To be able to cater to businesses from all industries, over the years the company has introduced a wide variety into its collection of **razor wire fencing**. Today, it has products of different grades and qualities.

After much success in the national front, Gurkrupa Wires has risen to the front stage in the international platform. With a great international network built over years, the company now caters to clients based outside of India. Presently, the company is working to process orders to Middle Eastern countries like Iraq, Iran, Egypt, Cyprus, Turkey, Syria, Yemen, Saudi Arabia, United Arab Emirates, Jordan, Israel, Lebanon, Oman, Qatar, Kuwait and Bahrain.
