

Tubeer has launched a Kickstarter to bring a new universal phone holder to market.

Tubeer is a universal phone holder that can be used on any horizontal or vertical surface and with any mobile device.

London, Sep 18, 2018 ([IssueWire.com](http://www.IssueWire.com)) - Tubeer just launched on crowd-funding site Kickstarter. Starting from just £6 through the Kickstarter Special, Tubeer is the most affordable phone and tablet stand or holder that can be used on any horizontal or vertical surface.

Tubeer is the best phone holder that can be used on any horizontal or vertical surface. Ideal for a wide variety of applications, Tubeer is designed to fit into your life. From watching news in the shower, to FaceTiming with loved ones hands free, and from keeping track of the recipe when preparing dinner to watch YouTube how-tos, there are a million different ways to use Tubeer.

Magdalena Chrobot, a co-founder of Tubeer, explains: "While there are a lot of phone cases out there, they didn't solve the issue of keeping your phone clean, dry and out of the way. We've designed Tubeer to be small enough to take with you, but also versatile enough so you can use it on any vertical surface. This means you can enjoy your favorite show on the train while keeping your hands free or you can place it in your shower to catch up on the news in the morning. We've spent months designing, prototyping, and testing and iterating on a design that could be used anywhere. We've now shared it with the Kickstarter community and can't wait to hear how others will use their Tubeer."

Tubeer will be manufactured from a soft, matte material that will safely cradle the device while also being slip resistant. Totally waterproof and durable, Tubeer is designed specifically to be used with any mobile phone, even if in a case. A double-sided tape will be provided with each unit in order to allow Tubeer to be affixed to any vertical surface. Future versions may also include a variety of colors, with each color also supporting a specific charity.

“Tubeer is a great little phone stand you can use anywhere. Tubeer on Kickstarter represents an exciting opportunity for us to launch a new product, but also to give back to the community. We’ve been inspired by Cards Against Humanity in planning for future colors of Tubeer to support causes in the community. It is our hope we can continue in this proud tradition.” explains Jack Przemieniecki, co-founder of Tubeer.

You can back Tubeer on Kickstarter by following the link (<https://www.kickstarter.com/projects/tubee/tubee-a-great-little-phone-holder>), starting at £6 (25% off) for the Kickstarter Special backers.
