

## **Xybion Appoints Kamal Biswas as President & Chief Operating Officer to Power Up Digital Acceleration**

**Lawrence, Sep 16, 2018 ([IssueWire.com](http://IssueWire.com))** - Xybion Corporation, a US-based Digital Acceleration Platform driven business solution provider for highly regulated industries, announced today that Kamal Biswas has joined its Executive Leadership Team as the President & Chief Operating Officer. Kamal is a Design Thinker, a Digital Technology evangelist and a proven leader in driving transformational change. Kamal's joining the Leadership team will help Xybion drive its strategic growth through uptake and implementation of its cutting-edge low-code digital acceleration platform at Life sciences, Healthcare and other regulated industries.

“Having built a most modern Quality ingrained, Compliance embedded and Unified operational platform to facilitate digital acceleration for highly regulated industries over the last several years, I am very pleased to see a high caliber, strategic and pragmatic leader like Kamal joining us to drive our business growth across Life sciences and Healthcare value chain including R&D, Compliance and Risk management with a focus on predictive compliance and lab operations. Kamal's strategic vision, decades of experience of delivering outstanding values through management consulting, running pharmaceutical business functions and the experience of scaling up businesses will help drive Xybion's growth through enhanced value & relationships with its clients and partners,” said Dr. Pradip K Banerjee, Chairman, and CEO of Xybion Corporation.

Before joining Xybion, Kamal was a Partner and Leader of Life Sciences practice at Infosys Consulting. Previously, he spent several years working at pharma companies including Novartis Pharma and Ciba Geigy to manage manufacturing and late-stage R&D functions.

“I have had the pleasure of knowing Xybion's innovations over a couple of years and found it to be very timely for the industry. Xybion has very powerful technology platforms that are simple and easy to use, not only making businesses more productive at a reduced cost, its machine learning algorithms can predict business situations early to improve compliance, manage risks for better business outcomes,” said Kamal explaining his excitement in joining Xybion at this important juncture to drive rapid growth.

An alumnus of Indian Institute of Technology, a successful author of, “Pharmaceutical Prescription: How the Right Technology Can Save the Pharmaceutical Business” and a Design Thinker, Kamal has been evangelizing businesses, educational institutions and students to adopt technologies better to solve problems and enhance capabilities for over two decades.
