When a family of slaves escapes their plantation, an army of white riflemen chased them leading them into a cabin. Inside the cabin, they were trapped. Surrounded they were, the cabin torched leaving no escape for the family trapped inside. Abraham, the father, does all he can to protect his loved ones. So, they hide in a closet. But, the moment they face a sudden change in time things starts to get very weird. This family strong and brave discovered something about their newborn son that will cause them to meet things that don't happen in reality. Abraham recognizes genuinely why they call his son the Black Child and why they went through so much

Chris Perkins aka Director Lee, Founder of CP Production Studios and creator of The Black Child, explains: "That *The Black Child and the Discovery* will truly have a great impact on the world. Many may think it's about one particular subject but, it's not. This TV Show is going to be a hit. After years of developing this story, we can't wait to share it with the Kickstarter community and have them help nurture this unique series.

CP Production Studios claims that they guarantee that this series is going to be on Netflix so that many people in their homes will be able to watch it the season to season. Netflix tends to support campaigns like The Black Child due to its trending contributions. This campaign is like no other film campaign I have ever seen. They have huge rewards to give to supporters, such as handmade custom designed watches that engrave the show inside of it. Pretty cool huh!

Another perk you may like is their t-shirt designs that surround the front with The Black Child and magical creatures. The best part is that it supports all sizes from small all the way up to 4-5x which is amazing due to them wanting everyone to wear a shirt supporting the tv show.

CAMPAIGN GUARANTEES

- GLOBAL DISTRIBUTION – NETFLIX – VUDU AND AMAZON
- AMAZING PERKS THAT KEEP YOU ENGAGED IN ON THE SHOW
- CELEBRITY ACTORS SUCH AS TEQUAN RICHMOND TO PLAY LEAD.
