In India, According to a provision of the constitution, it is legally that women have equal rights in the society in all spheres like men. We always taught our daughter that after marriage, your family and your kid always should be your first priority. We have always given women first priority but on the other hand, women are treating very badly in their home and in our society. Some of thinking that being a housewife is a social stigma.

But our Recently Made Mrs. India 2018 Dellywood First Runner-up or Up Coming Face of the Bollywood, **Anshu Gupta (36)**, proved that Dream has no age. **Anshu Gupta** is working for NGO. She believes that we people are here to help each other.

Our country is still a male-dominated country; they still force women to do household works. But on this hopeless planet, I am very lucky that I found my husband. He pushed me to apply to Mrs. India 2018 Dellywood. He encouraged me all the time, he always taught me. He is my support pillar. He proved that behind every successful woman there is a man like in word **WO-MEN**. Whether women get hurt by men or get support from men in both situations, women always get success- **Added Anshu Gupta (Mrs. India 2018 Dellywood)**
