

DAMAC Towers by Paramount, designed by KEO, shortlisted as Residential Tower of the Year

KEO Consultants | Best Architecture Firms in Middle East | Landscape Architecture companies in UAE

Dubai, Oct 15, 2018 (IssueWire.com) - DAMAC Towers by Paramount has been shortlisted in the Residential Project of the Year category at the upcoming Construction Innovation Awards 2018 in Dubai, UAE.

The project is a 250-unit residential tower, designed by KEO, located in the Downtown Dubai district. The tower is part of the DAMAC Towers by Paramount development, which includes a mix of residential and commercial spaces. The tower is designed to offer a high-quality living experience with modern amenities and a sustainable design. The tower is expected to be completed in late 2018. The tower is located in the Downtown Dubai district, which is a major development in Dubai. The tower is designed to offer a high-quality living experience with modern amenities and a sustainable design. The tower is expected to be completed in late 2018.
