

First Truly All-In-One Shaving System, Trazor Launches on Kickstarter

Today Trazor launches on crowd-funding site Kickstarter. Starting from \$25 for the early bird special, Trazor is the first truly consumer travel friendly shaving; compact and accessible, seamlessly designed, and incredibly intuitive.

Los Angeles, Nov 5, 2018 (IssueWire.com) - Trazor is the affordable shaving system that comes ready to use out of the box. Ideal for everyday users and experts alike, it's designed for people who travel or shave at home. All your shaving supplies are integrated inside the handle — No need to carry bulky shaving gels or aftershave bottles. Trazor comes in two different versions: Trazor Gel, which has a built-in shaving and aftershave tube built into the handle, and Trazor Trim which features a built-in facial hair trimmer that can groom hair even in the most difficult spots like the nose, ears, sideburns and eyebrows. Both Trazor's come in different colors, and support over 40+ different blades for men and women.

Each Trazor system comes with its own razor stand and a compact travel case that ensures your blade is safe from bacteria — whether you're at home or traveling. The futuristic design of Trazor Gel and Trazor Trim will make you look forward to shaving each day. Trazor is lined with glow-in-the-dark technology to make it easy to find in a bag, at home or while traveling.

Some of Trazor's Features

- 1) Never run out of blades no matter where you go — Trazor accepts 40+ razor designs for both men and women from around the world.
- 2) One handle for the whole family — No need to carry multiple handles switch between blades for different users even with different razor blade styles.
- 3) All your shaving supplies integrated inside the handle — No need to carry bulky shaving gels and aftershave bottles.
- 4) Little to no water needed — Our special formula dual purpose shaving gel and aftershave requires very little to no water for shaving.
- 5) Each Trazor comes with a compact and stylish carry case, easily carry your shaving set in your carry-on or check-in luggage.
- 6) Our shaving gel formula is foam free and messes free, never worry about shaving foam leaking into your clothes and valuables.
- 7) Each Trazor comes with glow-in-the-dark lines, so it is easy to find your razor in dark corners and hotel bathrooms.

We know not everyone will be able to support us with a pledge, so even if you can't give a dollar or purchase Trazor, if you're a supporter of Trazor, you can help us spread the word on Twitter, Facebook, Reddit, Instagram and anywhere else you can think of!
