

GlowGolf Docklands ads a very small Bar

Le Bar European, Licensed for 4 people only.

Melbourne, Nov 23, 2018 (Issuewire.com) - GlowGolf Docklands, located in the very popular waterfront area of Melbourne, Victoria, Australia and situated in the District Docklands Shopping Centre, and has now added a very cosy bar to its already popular Glow in the Dark Miniature Golf business. 'Le Bar European' has an Italian ambience to it and has been aged to look as though it has been around for over a hundred years, with its richly coloured walls and blackened timber panels, and a countertop that was artisanally made from Huon Pine which grows in a small area of South Western Tasmania. The bar area is only 2 meters long and 1.3 meters wide, giving the room a total area of just 2.6 square meters (28 square feet), making 'Le Bar European' the smallest bar in Australia. The process of the bar's construction only took a total of 3 days and opened on Valentine's Day in 2018. The bar holds a liquor license which allows a maximum of 4 customers at a time, on offer are European Beers and Australian wines. A new shop frontage has been manufactured from weathered laser cut steel and high-density timbers that depict Australian animals and plants in its design. The new frontage was recently built in a process which took 18 months from the beginning to completion, this adds to the already strong Australian themes that run throughout the 18-hole miniature golf course. The venue is ideal for date nights, couples, families children and groups of all ages and sizes.
