

Competitors Companion Creating Competition Winners Through Its Online Platform

Leading competition portal, Competitors Companion, helping people win online competitions by providing links and answers to questions

**COMPETITORS
COMPANION**

London, Dec 6, 2018 (Issuewire.com) - Competitors Companion is one of the UK's oldest and largest leading competition portals, ranked as one of the best competition portals in the region. Competitors Companion's popularity and stronghold of the industry has been further reiterated, providing links to competitions on the internet, while also running its own competitions.

Competitions have become increasingly popular in recent times and the advent of online competition that allows individuals to compete and win a wide range of prizes even from the comfort of their homes has made it even easier for people to live their dreams of becoming winners. However, many of the available competition portals have not particularly met the needs of individuals and this is where Competitors Companion has been able to make a huge difference over the years.

As one of the oldest and largest online competition platform, Competitors Companion has been able to help its users enter thousands of online competitions, increasing their chances of winning enormously. The platform's uniqueness in addition to its comprehensiveness has stood Competitors Companion out from other such platforms, making it a true companion of competitors.

Some of the major benefits of Competitors Companion in addition to providing users with the answers to different online competition questions is a system that allows them to log which competitions they have entered so they do not accidentally enter it twice, along with an email address they can use to avoid subjecting their own email to spam.

The platform offers two packages – the free registration that allows users to log a limited amount of competitions and the £10 yearly package that allows them to log unlimited entries, get answers and enter competitions.

Some of the competitions available on the platform include car competitions, holiday competitions, cash competitions, and low-value competitions. Other competitions on offer on Competitors Companion are skill competitions and social media competitions including Facebook and Twitter competitions.
