

## Grand Mirrors now offers Philips LED Light for most of its Mirrors

**Cerritos, Dec 14, 2018** ([Issuewire.com](http://Issuewire.com)) - Grand Mirrors Inc., a leading California-based manufacturer of premium quality and made to measure lighted bathroom mirrors since 2012 announces its new lighting options powered by Philips.

Adding to its powerful light options are the new Philips Warm Light, Mid-warm Light and Cool Light LED lights.

Grand Mirrors integrates a light transfer technology that makes the light directed towards the person resulting in a very effective light that is up to 3 times brighter than other mirrors.

With its Captured LED light Technology and Equal Light Distribution, the mirrors are installed with a diffuser to spread out the light equally over the lighted parts of the mirror resulting to a high quality, beautiful and efficient lighting.

The standard Grand Mirrors LED light options are still available in Cool, Warm and True Light with wireless dimmers available.

To know more about the new Philips LED Lighting options, please visit <https://www.grandmirrors.com>.
