

## SRMB Is Offering The Most High-Quality TMT Rods At The Bestprice In Medinipur

**Kolkata, Dec 19, 2018 ([IssueWire.com](http://www.IssueWire.com))** - The rapid growth of the real estate industry saw the number of TMT bar manufacturing factories increase exponentially. The exponential growth resulted in a large number of factories using illegal methods in manufacturing. SRMB is a notable exception producing highest quality TMT bars at an affordable price for Medinipur region, West Bengal.

As one can see, every day new [TMT manufacturing](#) companies are setting its factories, and a person comes to know about it through their marketing and advertisement campaign. The TMT bar manufacturing is increasing in number each day. Due to improper government policies, the quality checks used by these companies are inadequate, resulting in a rise of serious question regarding the safety of human life. A few years back, Kolkata was not much within the radar of earthquake hotspot. In recent days, the citizens of Calcutta experienced tremor on several occasions. The contributing factor for such change is environment due to extensive damage to the mangrove forest in the Sunder bans. A favourite brand named SRMB regarded as the premium suppliers when it comes to [TMT bars](#). The manufacturing plant of this company is in Durgapur, and they have a reputation of using the cutting-edge latest technology. The plant is one of the well-equipped plants in the country. The state-of-the-art piece of machineries helps the brand to maintain its standing in the current competitive market. The brand has a large number of authorized suppliers across the country which makes it even better for the people to identify the genuine product. The price of the TMT bars produced by SRMB varies from state to state due to the isolated location of the production plant. As the plant located in Durgapur, which is in eastern India, the cost of distributing the product across the country incurs an additional charge. The official website comes with a price brochure for each state of India. In spite of varying prices, SRMB TMT bars widely purchased across the country. As TMT bars, mostly bought in bulk amount, the manufacturer hooks the purchaser with exciting discount and gift vouchers to improve the revenue of the company by increasing sales. The number of [TMT bars](#) manufacturer is quite large; SRMB maintains a very competitive price in the market to improve their sales number. The brand never rests and always tries to walk hand in hand with the latest change occurring in the industry.

## **About the company:**

The plant located at Durgapur is considered one of the newest rebar rolling units in the country. They are the first and only organisation in India who has the permission for TMT Process control technology up to Fe 550 grade. The plant is BIS and IMS certified, and the brand has many firsts to its credit in the steel industry.
