

Cape Town's One-Stop Steel, Tubing and Hardware Destination

Western Cape, Jan 15, 2019 (IssueWire.com) - Steel and Pipes Cape Town serves as a one-stop purchasing destination, being one of the most centrally situated suppliers in the industry. Operating since more than 17 years, Steel and Pipes Cape Town has emerged as one of the largest and a preferred name in Cape Town's steel and allied industry. Featuring a great product range and offering high-flexibility, the company has established itself as the supplier of choice to many emerging contractors, DIY enthusiasts, and many large engineering concerns.

Products Offered by Steel and Pipes Cape Town

[Steel and Pipes Cape Town](#) offers a wide range of products to various industries across South Africa like construction, security, tunnel farming, fencing, agriculture etc. The various products supplied and stocked by them can be classified as follows:

1. Steel Products – A leading supplier of steel, Steel and Pipes Cape Town manufactures all its steel profiles in commercial grade or in Grade S355JR, depending on the product and its application. Various

steel products are manufactured and supplied by them including bars – flat, round and square; angles, channels, IPE sections, columns, and beams.

2. Structural Tubing Products – A complete range of structural tubing is available with Steel and Pipes for Cape Town. The tubes manufactured by them can be broadly categorized as Structural Tubing or Mechanical Tubing. The tubes are available in varying thicknesses, ranging from 1.6mm to 6.0mm. The various types of tubes stocked by them include, square tubing, round tubing, galvanized round tubing, rectangular tubing, and cold rolled tubes.

3. Fencing Products – Steel and Pipes Cape Town supplies two different types of fencing – Palisade fencing and Betafence. The Palisade fences are custom made as per the length, in 50mm and 65mm widths. While the Palisade fence is preferred for residential and commercial applications, the Betafence is best suited for industrial and high-security applications. They also stock wire panel fencing posts and epoxy-based expansion fence.

4. Hardware – Steel and Pipes stocks a wide range of security and industrial hardware, serving as a one-stop shop. You can easily find hardware products like cutting and grinding discs, MIG wire, welding rods and accessories, wheels, gate kits, hinges, brackets and guides, snap off coaches, Wall plugs and spikes, locks, ornamental castings etc.

All products supplied by Steel and Pipes Cape Town are ISO and SABS certified. They also offer punching, galvanising and cutting facilities, along with free delivery across the greater Cape Town area. To know more about the products offered by them, please visit their website <https://spfa.co.za/>.

About the Company

Steel and Pipes Cape Town is a part of a national network of steel and tubing suppliers. The group consists of 18 branches and has amassed more than 25 years of experience, since its establishment in 1993. The Cape Town branch was established in 2001, and has been serving as a reliable supplier of steel and tubing products since then.
