

Crosslinks Money Transfer Now Offering a "Zero" Transfer Fee

Crosslinks Money offers Zero transfer fee on money transfer to India, Philippines and Sri Lanka from Canada.

Brampton, Jan 17, 2019 (IssueWire.com) - The New Offer Applies to all New Customers Who Wish to Send Money to India, Philippines, and Sri Lanka from Canada

Today, Crosslinks Money, an exclusive digital money transfer company, is proud to announce free money transfers for all new customers. This exclusive offer applies to all new customers looking to transfer money from their Canadian bank accounts to countries including [India](#), the [Philippines](#), and [Sri Lanka](#).

Registration is required to send money, however, customers only need to register once. Once the registration process is complete, all customers have to do is click on Send Money. Based on the payment method (Interac Email transfer or Debit Card) of choice, customers will be taken to the Regular page (for Email transfer) or Fast page (Debit Card). You can only send in CAD from Canada. Now for customers looking transfer money to the specific locations mentioned previously, transfers are completely free and apply to any new customer looking to send \$3000 CAD or less.

In addition to providing access to free money transfers, new customers can rest assured knowing they are getting the best exchange/fx rate. Crosslinks services ensures a fast and secure transfer with additional benefits such as bank transfer, lock-rate features and more. Please click on the terms and conditions page for more information.

Crosslinks is registered and regulated by FINTRAC and partnered with Royal Bank of Canada, Equifax, Moneris, Interac, Visa, Paypal, among others.

About Crosslinks:

[Crosslinks Money](#) is an exclusive digital money transfer company, based out of Toronto, Canada and aims at digital money transfer across the globe and extremely competitive exchange rates and minimal transaction fees with an aim to provide fast, secure and economical transfers, keeping to the motto of Pay Less & Send More. Conceived as a new generation digital product, it links all digital instruments of pay-ins and pay-outs and eliminating the traditional agent and vendor bases process which essentially added to the cost and passing these benefits to the user.
