

Let Your Hair Down With Im Just Dane's Mesmerizing Brand New Tracks

Soul and integrated R&B artist im just Dane's take on his experiences of becoming an individual reflects immensely in his tracks 'Enjoy Yourself' and 'Wait For It'.

Los Angeles, Dec 31, 1969 (Issuewire.com) - The story of Los Angeles based soul artist **im just Dane** is straight out of a fairytale. His roots trace back to the life of a street thug in his hay days but look what he has made of himself! His accomplishment lies in the experiences that he has gathered over the years that have made him into the finest example of transformed disposition. His music career has been a journey in itself with limitless independence in terms of the arrangement, writing and overall composition. **im just Dane** has pursued his line of work along the enchanting lines of soul with an R&B pop glazing the laterals of his songs. '**Enjoy Yourself**' and '**Wait For It**' shows unparalleled versatility and a sense of that deeper connection we all crave.

im just Dane's feat as a musician lies in his innate take on personal ordeals and affairs in his songs. He is a storyteller, the neo-lyricist who has the ability to attract the audience with a touch of honest verses. '**Enjoy Yourself**' is a mood booster and extremely relatable as a referential analogy of life and survival. '**Wait For It**' has a vibe of that every day dilemma that consumes us and makes us look for respite. It is a tribute to all those bohemian dreamers we come across every day including ourselves.

His songs brim with positivity and optimism that makes you a better person. [im just Dane](#) strums

along with conviction and certainty of a different kind that is a testament to the better things in life apart from the hostilities of the social and economic hierarchy. Follow him on his social handles on Facebook, Twitter, Instagram, and YouTube to support him through his journey of catchy riffs. And if you want to get hooked on to really good music and lyrics, check out his sound streams on Soundcloud today!
