New York, Feb 27, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr Hubbard currently practices within his private practice

where he has experience in helping adults and adolescents 16 and older who are struggling with mood management issues like depression, anxiety, and anger. He also provides counselling services for those struggling with stress management and relationship issues. He has experience in a wide range of cases and an extensive background in research and counselling therapy. He holds expertise in Response to trauma, Adjustment difficulties, Life coaching, Depression, Anxiety or fears, Divorce, Domestic abuse or violence, Parenting, Spirituality, Trauma and PTSD, Impulse control disorders, Personality disorders, and Thinking disorders.

Dr Hubbard graduated with his PhD from Brigham Young University in 1981, giving him over three decades of experience in his field. To stay up to date in his field he remains a professional member of the American Psychotherapy Society.

The American Psychotherapy Association's goal is to improve the public perception of psychotherapy. The American Psychotherapy Association promotes the field of psychotherapy and those professionals who are committed to the practice. The American Psychotherapy Association encourages individual professional growth and works to elevate professional standards for practising psychotherapy. The purpose of the American Psychotherapy Association is to establish a cohesive national organization that credentials ethical, highly-educated and well-trained psychotherapists.

Psychology is the science of behaviour and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science, it aims to understand individuals and groups by establishing general principles and researching specific cases.
