

David M. Cohen, MD, Diagnostic Radiologist with the Chesapeake Regional Medical Center

Get to know Diagnostic Radiologist David M. Cohen, who serves patients in Chesapeake, Virginia.

New York, Feb 25, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Having over 31 years of experience in his field, Dr. Cohen currently practices as a Diagnostic Radiologist with the Chesapeake Regional Medical Center in Chesapeake, Virginia.

As a unified family of providers, Chesapeake Regional Healthcare brings a broad range of care to the people of southeast Virginia and northeast North Carolina through Chesapeake Regional Medical Center and its affiliate services. A local, independent, community-focused organization, Chesapeake Regional Healthcare offers area residents what they want: high quality, technologically advanced health care delivered by people who openly display their caring, concern and compassion.

Dr. Cohen received his medical degree in 1988 from the Medical College of Virginia/ Virginia Commonwealth University School of Medicine in Richmond, Virginia.

Upon receiving his medical degree, Dr. Cohen went on to complete his residency in Radiology at Virginia Commonwealth University Health in Richmond, Virginia. He is board-certified in Diagnostic Radiology by the American Board of Radiology.

The American Board of Radiology is an independent, not-for-profit organization and is one of 24 national medical specialty boards that make up the American Board of Medical Specialties. They were founded to protect the public by assessing and certifying doctors who meet specific educational, training, and professional requirements.

Diagnostic radiology refers to the field of medicine that uses non-invasive imaging scans to diagnose a patient. A diagnostic radiologist is a qualified medical physicist who works with radiologists and other physicians on image modalities such as CT (computed tomography), x-rays (radiography), fluoroscopy, mammography, ultrasound and MRI (magnetic resonance imaging). They then use medical images to interpret and treat health problems in patients.
