**Commerce, Feb 4, 2019 ([Issuewire.com](http://Issuewire.com))** - The Shoppes at Banks Crossing is going all out for its customers. As a community, there is great buying power that can be unlocked by its retailers. Via a new Group Buying Program created by shopping center management, The Shoppes at Banks Crossing's retailers and service providers will be offering great products and services and super savings on an ongoing basis!

“The Shoppes at Banks Crossing are very excited to offer The Shoppes at Banks Crossing Group Buying Program to our community,” said Jessica Paski, Shopping Center Manager. “Everybody loves shopping in person, interacting with a knowledgeable staff that knows them and are passionate about the products and services they sell. The Shoppes at Banks Crossing Group Buying Program will make these shopping opportunities even more of an adventure.”

Online shopping can at times be dull, empty and a bit frustrating. Our customers often remark that they're turning to retail spaces again, but ones that create experiences for them. Stores selling goods and services that can't be purchased online are the best bets for a great shopping experience they appreciate.

We know that our mall is a community hub servicing people in Commerce, GA and beyond. The Shoppes at Banks Crossing is a place where people gather, buy the things they need, eat, see movies, work out, enjoy entertainment, and recreation, worship, and more.

All this is what The Shoppes at Banks Crossing delivers.

The Shoppes at Banks Crossing Group Buying Program will increase all this energy. Follow our [web site](#) and [Facebook](#) and [Instagram](#) pages for more information.

**The Shoppes at Banks Crossing:** For the shopping experience you deserve. The Shoppes at Banks Crossing is in Commerce, Georgia directly off I-85, 110 Banks Crossing Dr, Commerce, GA 30529. This hometown strip mall and its retailers are fighting the good fight to serve our community with super products and services, great value and excellent customer service.
