Denver, Mar 17, 2019 (IssueWire.com) - Hop-On-Hop-Off Bus Tours, a subsidiary of City Adventures Pvt. Ltd. has been focusing on organizing hop-on hop-off bus trips in almost all well-known cities throughout the world. Anybody who visits the portal of the tour operator will be able to take a peek at more than 5,000 bus tours relating to 300+ locations. The travel agent suggests that any sightseer, who wants to stay updated on the latest packages, should register on their portal. Individuals can also view the price or cost of a particular package in their preferred or native currency by moving to the navigation bar and clicking on the 'currency' field in the top right part.

Booking and confirming a [city sightseeing](#) bus tour package is simply not an issue. First, check out the tour packages listed on the site by clicking on "All Tours" in the navigation panel. Or if the traveler has any special location in mind, he'd just need to enter the name of that place in the search field and choose 'explore'. Once he has decided to choose a particular bus tour package in his preferred location, he mentions the date of the trip. When the tourist opts for a date, he can clearly see if a tour has been planned for that day. Next, the individual has to mention the total number of adults and children who'll accompany him.

Thereafter, the prospective tourist arrives at the webpage for booking where he has to click on 'Add to Cart'. Subsequently, the person is taken to the 'travel cart' section whereupon application of a promo code reveals the cumulative cart value. Next, the customer clicks on the 'Proceed to Payment' tab on the same page whereupon he has to give his contact details. Finally, the tourist is required to click over 'proceed to payment'. The customer can credit payment either through PayUmoney or PayPal using his debit or credit card. The individual, once he has confirmed the booking by making payment, receives a notification mail along with a voucher on the registered mail id within 3 days. [Hop-On-Hop-Off Bus Tours](#) assures all its customers all sensitive information pertaining to transactions and debit/credit cards will always stay encrypted, and hence secure.
