

Kafui A. Demasio, MD, MHP, Obstetrician-Gynecologist with Montefiore Medical Park at Eastchester

Get to know Obstetrician-Gynecologist Dr. Kafui A. Demasio, who serves patients in New York City, New York.

New York City, Mar 21, 2019 (IssueWire.com) - Dr. Demasio specializes in Obstetrics & Gynecology and Women's Health. She is affiliated with Montefiore Medical Park at Eastchester in New York City, New York. As the academic medical center and University Hospital for Albert Einstein College of Medicine, Montefiore Medical Center is nationally recognized for clinical excellence - breaking new ground in research, training the next generation of healthcare leaders, and delivering science-driven, patient-centered care. Their mission is to heal, to teach, to discover and to advance the health of the communities they serve.

Dr. Demasio is also an Assistant Professor of the Department of Obstetrics & Gynecology and Women's Health (Maternal Fetal Medicine) at the Albert Einstein College of Medicine. The Albert Einstein College of Medicine is a research-intensive medical school. For more than 60 years, their diverse faculty and staff have set the standard for excellence in medical and graduate education and patient-centered clinical care, and have made major contributions to scientific research enhancing human health in their communities and beyond. Their mission is to prepare a diverse body of students to become knowledgeable, compassionate physicians and innovative scientific investigators, and to create new knowledge.

Dr. Demasio received her medical degree from the University of Medicine & Dentistry of New Jersey. She then went on to complete her residency at Stanford University Medical Center, followed by her fellowship training at Yale University School of Medicine.

Obstetrics and gynaecology (commonly abbreviated as OB-GYN) is the medical specialty that encompasses the two subspecialties of obstetrics (covering pregnancy, childbirth, and the postpartum period) and gynaecology (covering the health of the female reproductive system – vagina, uterus, and ovaries). As an obstetrician-gynecologist, Dr. Demasio provides medical care related to pregnancy or childbirth, as well as diagnoses, treats, and helps prevent diseases affecting women, particularly those related to the reproductive system. Her professional interests include the complications of premature rupture of membranes, preterm birth and cervical incompetence, which often result in extreme prematurity and neonatal death. "Using both clinical strategies and laboratory techniques, I hope to gain knowledge of the change in microbes, inflammatory cytokines and trigger of labor, which results in preterm delivery" stated Dr. Demasio.
