

Award Winning Artists Unite To Create Koroga

Three of Africa's Brightest Stars Shine On New Song

Sacramento, Apr 27, 2019 (Issuewire.com) - Award Winning Artists Unite To Create "Koroga"

Black Market Records and Kompakt Records have announced the release of the new single Koroga. This musical composition combines the talents of three award-winning artists from East Africa to create a catchy collaboration that blends a combination of dancehall, hip-hop, and Afro-pop. The ambitious orchestration and melodic sounds of the electric synthesizer provide a new type of club song that is

perfect for the concert setting that attracts African dances. This is captured in the stunning video for the song. The video was shot in Tanzania and conveys the delightful energy that Koroga carries.

Koroga features multi-talented artists Gabu, Arrow Bwoy, and Daddy Andre. Each artist has established a reputation for creating hit songs and have won numerous awards. This trio brings good vibes to international music lovers with a sound that is being celebrated by the masses. They have come together to create entertaining lines that relay the lyrical genius that has made them stand out. "Arrow Bwoy is a great artist in East Africa and Daddy Andre has a different kind of style and sound," says Gabu, "Therefore the blend among the three acts will take the market by force." This song is available on all digital platforms.
