

CBD-Infused Bubble Bath Teas- Muscle-relaxing CBD bath infusions

Made With A Mission CBD-Infused Bubble Bath Teas Muscle-relaxing CBD bath infusions

Colorado Springs, Apr 23, 2019 (Issuewire.com) - Made With A Mission, an innovative supplier of CBD-infused bath products, announced today a new product addition to their current offering. The company's Muscle Rescue CBD Bath Teas, are infused with a nano, water-soluble CBD to provide the ultimate bathing experience.

"As the CBD industry becomes more mainstream, old stigmas are falling away," says AnnKelly spokesperson for MWAM. "We are pleased to be on the forefront of the CBD industry's expansion with different, and innovative products. We want to see barriers being broken down between these exciting new products and the people who would be helped by using them."

The Muscle Rescue CBD Bath Teas infuse bath water with herbs, botanicals, Dead Sea Salt, essential oils, and water-soluble CBD. The botanical mixture activates the water and turns the water blue (in a way that doesn't stain the bath or skin). The bath tea set also transforms the bath into a bubble bath.

The CBD included in the bath tea bags is grown in Colorado and is THC-free. The CBD is isolated and nano-encapsulated, with terpenes added back into the mixture. The resulting mixture is specially formulated for muscle relaxation. AnnKelly Cameron is available for interviews regarding Muscle Rescue CBD Bath Teas.
