

Dawn Huff, RN, Field Nurse with M & M Home Care

Get to know Field Nurse Dawn Huff, who serves patients in Livonia, Michigan.

New York City, May 17, 2019 (Issuewire.com) - Dawn is a field nurse who is affiliated with M & M Home Care, located in Livonia, Michigan. M & M Home Care is one of Michigan's leading home care services. As a nurse-owned and operated business, M & M Home Care specializes in caring for Michigan No-Fault Auto and Workers Comp accident cases resulting in the traumatic brain, spinal cord, and other catastrophic injuries.

For 24 years, Dawn worked in the med-surg unit of a hospital where she said diversity and fast pace were a bonus. Now, in-home care, she deals with treating patients who have been involved in car accidents, as well as patients with brain, head, spinal or body injuries.

Dawn is also affiliated with St. Mary Mercy Livonia Hospital. Located in Livonia, Michigan, St. Mary Mercy Livonia is a community-based hospital, providing comprehensive and compassionate care throughout its 304-bed hospital and outpatient services.

When asked why she chose a career in nursing, Dawn said that she always wanted to become a nurse so that she could help people.

Dawn attributes her success to being goal oriented, driven, organized, and passionate about her profession. She is a huge patient advocate.

Dawn graduated from Churchill High School in 1988. She then went on to receive her Associate's Degree in Nursing (ADN) from the University of Detroit Mercy in 1991.

Dawn holds certification in Basic Life Support (BLS).

A field nurse, like Dawn, is any registered nurse who assesses health problems and aids the ill, elderly, disabled or injured. Frequently known as a registered nurse (RN), they help the clinical team and patients.

An RN is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to the primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
