

## **Rex L. Solomon, RN, FCN, Registered Nurse with Green Valley Hospice and Palliative Care, Inc.**

Get to know Registered Nurse Rex L. Solomon, who served patients in Victorville and Apple Valley, California.

**New York City, May 10, 2019 ([IssueWire.com](http://IssueWire.com))** - Rex is a registered nurse (RN) who is currently serving patients at Green Valley Hospice and Palliative Care, Inc. in California. Green Valley Hospice and Palliative Care, Inc. have a full comprehensive interdisciplinary team that provides professional management and coordination of care to meet patients' needs. The team and services include social workers, home health aides, volunteers, chaplains, physician services, skilled nursing, medications, as well as medical equipment and supplies.

Rex is also affiliated with the Victor Valley Global Medical Center, which is located in Victorville, California. Victor Valley Global Medical Center (founded in 1967 as Victor Valley Community Hospital) is a 101 acute care bed hospital. The hospital is committed to providing high quality, cost-effective healthcare services to residents of the High Desert communities.

Rex's areas of expertise include hospice care and home health care. Hospice care is a type of care and philosophy of care that focuses on the palliation of a chronically ill, terminally ill or seriously ill patient's pain and symptoms and attending to their emotional and spiritual needs. Home health care is a cost-efficient way to deliver quality care in the convenience of the patient's home. Home health nurses, like Rex, create care plans to achieve goals based on the patient's diagnosis.

Rex received her Associate in Applied Science (AAS) degree in Nursing from Victor Valley College in 2009. She graduated Magna Cum Laude.

Rex holds certification as an intensive care unit nurse. These nurses provide care for patients with life-threatening medical conditions. They work in the critical care unit of a hospital or healthcare facility and look after patients who have experienced invasive surgery, accidents, trauma or organ failure.

Rex attributes her success her compassion and empathy for her patients, her determination, as well as the support she received from her family. When asked who motivates her at the start of each day, Rex answered Dr Lloyd Dayef, Neurosurgeon.

A registered nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfil a variety of job duties. In addition to the primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.

In her spare time, Rex enjoys playing volleyball and fishing.
