The dental practice was founded in 1951 by Dr. Funk's father - Richard B. Funk. It remains in the same location with many of its original patients and their children, grandchildren, and in some cases, great-grandchildren.

At his dental practice, Dr. Funk's immediate concern is dental health, which is why he is very adamant in stressing regular dental check-ups and cleanings. Some of the services he provides include veneers, crowns, dentures, composite fillings, implant restorations, and more.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity.
