**Greater Demand for Preventive Diagnostics & Early Interventions**

Key players in the diagnostic imaging services markets are launching enhanced diagnostics imaging devices that will aid in treatment planning, diagnosis, disease management and prevention. The advent of such devices will fuel the growth of the diagnostic imaging services. Rising prevalence of chronic diseases warrants early detection to help arrest or treat the disease in time, with better patient outcomes. In an effort to diagnose, prevent or arrest the progression of diseases, patients and doctors alike are seeking diagnostic imaging service capabilities. Early diagnosis via use of imaging technology can qualify some of the medical issues to be resolved much more quickly, allowing for improved prognosis.

## Technological Advancements

The advent of innovative diagnostic imaging technology such as 4D and 5D ultrasound medical devices, 7T MRI equipment, innovations in digital X-ray technologies and high-slice CT scanners are factors that are expected to be pivotal in the growth of the diagnostic imaging market. The market is estimated to be further fueled by factors such as evolution of diagnostic imaging techniques with lowered doses of ionizing radiation, thereby decreasing the harmful effects of radiation on patients as well as technicians and innovation of hybrid imaging systems.

## Key Points of Table Of Content

- INTRODUCTION
- RESEARCH METHODOLOGY
- ABSTRACT OF THE STUDY
- MARKET DYNAMICS ASSESSMENT
- UNIQUE SELLING PROPOSITIONS (USPs)
- MARKET, BY THERAPY
- MARKET, BY TYPE
- MARKET, BY END USER
- MARKET - ANALYSIS & FORECAST, BY REGION
- COMPETITIVE LANDSCAPE
- COMPANY PROFILES

Based on the types, the Diagnostics imaging Services market has been further classified based on geography, application and consumption capability. On the basis of the product application, the industry is bifurcated taking into consideration those in demand and are an outcome of technology advancement. Region-wise, the performance of the industry along with the prominent vendors operating in the geography also illuminates stakeholders, business owners, and field marketing, executives. The different facets of the business based on parameters including new launches, acquisition and mergers and new entrants are discussed extensively during the study.

## About Market Industry Reports-

Market Industry Reports is a global leader in market measurement & advisory services, Market Industry Reports is at the forefront of innovation to address the worldwide industry trends and opportunities. We identified the caliber of market dynamics & hence we excel in the areas of innovation and optimization, integrity, curiosity, customer and brand experience, and strategic business intelligence through our

research.

We continue to pioneer state-of-the-art approach in research & analysis that makes the complex world simpler to stay ahead of the curve. By nurturing the perception of genius and optimized market intelligence we bring proficient contingency to our clients in the evolving world of technologies, megatrends and industry convergence. We empower and inspire Vanguards to fuel and shape their business to build and grow world-class consumer products.
