

Panache Has Set a Benchmark in the Exhibition Design Industry Consistently

Panache is a reliable and trusted exhibition design & build company which has constantly served the purpose of exhibitors. It believes in handling the 360° bespoke exhibit solutions under one roof.

New Delhi, Jun 4, 2019 (Issuewire.com) - Panache made its debut in the exhibit design industry over a decade ago. It was recognized as the one-stop solution for exhibition stall designing, fabrication and installation. With its team of exhibit solution contractors, the [exhibition booth design](#) company has paved a path to exhibitors to choose the trusted services. A special emphasis is given to the details of exhibit solutions to present the products and services of the client effectively.

In order to acknowledge this fact, Md. Razi Shakir, the founder of Panache stated: “We ensure precision in the exhibition booth designing and fabrication of each project. There might be a few challenges which make the project execution, but, we rely on high-end technology and design tools to replicate the business vision of the client.”

Within a span of a decade, Panache has covered 25000 sq. meters’ area in the process of tailoring exhibition display stands for its clients. Clients from various industries contact this **exhibition booth**

designer in Delhi to avail build & design services according to their respective theme. Panache has constructed 1500 exhibition stands in 55 avenues while maintaining accuracy in each project.

Mr Shakir mentions the association of clients with Panache: “Most of the times, the success of a company even depends on the way, a company corresponds with clients. We, at Panache, have worked closely with over 800 clients. Most of these clients appreciated us for our dedication and expertise to execute the project with finesse.”

The **exhibition booth design company** is able to attract exhibitors through its accreditation. Panache has also won the trust of the client through its credibility in the market, wherein, it has received the certification of ISO 9001: 2008 for its notable work. It has applied advanced design strategies and tools and blended them into the fabrication of exhibition stall fabrication. Since the design and structure of the exhibit display stand need to complement each other, the professionals of Panache given equal attention to both processes.

Mr Shakir remarks: “Our 360° approach towards designing, fabrication, manufacturing and installation of exhibit stall has created a legacy to create delightful exhibit design experiences. Our professionals focus on all the essential aspects to attain the objective of the project as discussed in the client briefing.”

In the process of handling all the works related to finalizing the exhibition booth of the client, Panache has emerged as a leader in the exhibit design industry. It has not just created **exhibition booth design** and build masterpiece through its services, but, even set a benchmark for its competitors innovatively.

The company is all set to continue its art of engaging the audience through visually stunning and perfectly fabricated exhibit solutions.
