

25th International conference on Materials Science and Nanotechnology

Euro Materials 2019

Rome, Nov 18, 2019 (IssueWire.com) - 25th International Conference on Materials Science & Nanotechnology will be organized around the theme “Innovative Approach and Recent Developments in Materials Science & Nanotechnology”. Euro Materials-2019 is comprised of keynote and speakers sessions on the latest cutting edge research designed to offer comprehensive global discussions that address current issues in Euro Materials 2019.

Topics:

Materials Science and Engineering

Nanoscale Materials and Nanotechnology

Electronic, Optical and Magnetic Materials

Ceramics & Composites

Pharmaceutical & Industrial Coating Materials

Nanotechnology-Basics to Applications

Polymer Materials and Technologies

Smart Materials and technologies

Metals, Mining, Metallurgy and Materials

Biosensor and Bio-electronic Materials

Carbon & Graphene-Based Materials

Computational Materials Science

Structural Materials

Bio-Materials & Bio-devices

Entrepreneurs Investment Meet

We invite all to this excellent international materials science conference (Euro Materials 2019) with great scientists, from all over the world and sharing new and exciting results in Materials World, which will be held in Italy from November 18-19, 2019. The conference provides a chance to meet Prof Osman Adiguzel, Honourable Guest of the conference, who will be sharing his research experience and provides insights in the field of Materials and Nanotechnology.
