

Andrew P. Jameson, MD, FACP, Infectious Disease Specialist with Mercy Health Infectious Disease

Get to know Infectious Disease Specialist Dr. Andrew P. Jameson, who serves patients in Grand Rapids, Michigan.

New York City, Jul 25, 2019 (Issuewire.com) - Dr Jameson is a board-certified infectious disease specialist who is affiliated with Mercy Health Infectious Disease in Grand Rapids, Michigan. Mercy Health Infectious Disease provides compassionate care for patients and families affected by various diseases that threaten their health and impact their quality of life. The specialists work with referring physicians to use innovative techniques to determine the best approach for treatment and education. Mercy Health Infectious Disease provides care for a range of infectious diseases, including Hepatitis C, HIV/AIDS and Liver Disease/Hepatology, and more.

Dr Jameson is a Fellow of the American College of Physicians. He is also a member of the Infectious Diseases Society of America. Dr Jameson earned his medical degree from Wayne State University

School of Medicine. He then went on to complete his residency at Grand Rapids Medical Education Partners, followed by his fellowship in infectious diseases at the University of Michigan Medical Center.

Dr Jameson is board-certified in both internal medicine and infectious disease by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world. Dr Jameson's favorial professional publication is the Journal of Clinical Infectious Diseases. In his spare time, he enjoys golfing and spending time with his family.

Infectious disease, also known as infectiology, is a medical specialty dealing with the diagnosis, control, and treatment of infections. An infectious disease specialist's practice may consist largely of managing nosocomial (hospital-acquired) infections or it may be out-patient based. Dr Jameson specializes in infections that are difficult to diagnose or unresponsive to treatments, such as HIV or airborne infections from a foreign country.
