Plastic surgery is a surgical specialty involving the restoration, reconstruction or alteration of the human body. It can be divided into two categories. The first is reconstructive surgery, which includes craniofacial surgery, hand surgery, microsurgery, and the treatment of burns. The other is cosmetic or aesthetic surgery. While reconstructive surgery aims to reconstruct a part of the body or improve its functioning, cosmetic surgery aims at improving the appearance of it. As a plastic surgeon, Dr. Gomez-Garcia combines his surgical expertise with an artistic touch to provide patients with beautiful and satisfying results that last many years.

In his spare time, Dr. Gomez-Garcia loves to learn the latest techniques in plastic surgery and frequently attends plastic surgery seminars. His active participation in the community also plays an important role in his life.
