Metropolitan Manila Area, Jul 3, 2019 (Issuewire.com) - Claned ZharBiz International: The Future of Online Learning

We know how to boost learner engagement with social features, analytics and artificial intelligence.

Are you ready to inspire your learners?

Claned ZharBiz International is the easiest way to build learner-centric and cost-effective online courses that users love.

Choosing Claned ZharBiz International means you truly want to inspire learners and design their learning the Finnish way. We know how to boost learner engagement with social features, analytics and artificial intelligence.

That is why you will succeed with us.

Claned ZharBiz International applies artificial intelligence and learning research, revealing what factors impact individual learning. The product concept is based on years of academic research and has been developed in collaboration with leading educational institutions.

Claned ZharBiz International is designed to capture data on every interaction students make with the system. Interactions occur when students read, write, collaborate, organize and plan – everything that students do. This results in a comprehensive insight that demonstrates the student's study performance and learning orientation, but also motivation, emotion and stress levels.

"Claned helps students to learn how they learn"

Claned ZharBiz International returns the data back to teachers and education providers through Learning Analytics in a graphical easy to understand form in real-time.

Teachers thus receive the necessary tools to intervene before failure or drop-outs occur, as well as assistance in recognizing students needing support or lacking challenge.

"Educators can act upon real-time knowledge"

Claned ZharBiz International is designed to capture data on every interaction students make with the system. Interactions occur when students read, write, collaborate, organize and plan – everything that students do.

Claned ZharBiz International is designed to fulfil a wide range of learning needs for all types and sizes of educator and learner: forward-looking universities, sprawling conglomerates, teachers and even individual students benefit from **Claned ZharBiz** powerful features.

Cutting-edge pedagogy and machine learning research always form the foundation of our first-rate service. Unrivalled learning analytics, ergonomic social features, AI-powered recommendations and learning path generator make **Claned ZharBiz International** the most personal and insightful learning platform on the market.
