

Fire Serv is Providing Top Quality Fire Suppression Services That Can Help Save Lives & Restaurants

New York City, Jul 23, 2019 (IssueWire.com) - Fires don't pick and choose what time or location they will occur. Accidents happen, and sadly, they tend to happen when we least expect them to. Here at Fire Serv, we provide the best **Restaurant Fire Suppression Inspections, Restaurant Fire Suppression Maintenance, and Restaurant Fire Suppression Installation** services in the United States.

Did You Know?

According to the [National Fire Protection Association \(NFPA\)](http://NationalFireProtectionAssociation.org), "Between 2010-2014, an estimated average of 7,410 structure fires in eating and drinking establishments were reported to U.S. fire departments per year. These fires caused annual losses of three civilian deaths, 110 civilian injuries, and \$165 million in direct property damage. Cooking equipment is the leading cause of these fires (61% of incidents). Electrical distribution and lighting equipment and heating equipment each accounted for 9% of fires. Cooking materials were the item first ignited in 43% of the fires in eating and drinking establishments."

Now, imagine how much higher those numbers are today? With more restaurants being opened across the country, a bigger need for bigger establishments arises as well. This makes having all of your [Restaurant Fire Suppression Inspections](#), **Restaurant Fire Suppression Maintenance**, and **Restaurant Fire Suppression Installation** services working properly. They should also be serviced by an expert you can trust like the ones here at Fire Serv.

Most restaurants don't have an adequate enough Fire Suppression system in place until an inspection tells them it's not up to code or it's subpar. Don't be one of those restaurants! You've worked far too hard to build a business that is truly your own, and it deserves to be protected. Do the right thing for yourself, your business, your staff, and your customers. Protect your investment with a quality **Restaurant Fire Suppression Installation** from Fire Serv.

Something To Remember

Having safety measures in place for you, your employees and your business are always helpful. Having you and your employees well prepared to handle any potential fire emergency is essential. Don't trust outdated or basic methods of fire suppression to try and keep your business safe. Trust the experts at FireServ to help serve you and your business with some of the best fire suppression services in the industry. Getting quality **Restaurant Fire Suppression Inspections, Restaurant Fire Suppression Maintenance, and Restaurant Fire Suppression Installation** services in the United States. involves a number of factors. Making sure your building is safe, inspections are up to date, and you've taken care of all the "small things" that can cause a fire, will ultimately help prevent most fires.
