

Hal Stewart, DDS, FACD, a General & Cosmetic Dentist in Private Practice

Get to know General & Cosmetic Dentist Dr. Hal Stewart, who serves patients in Flower Mound, Texas.

New York City, Jul 26, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr Stewart has a longstanding commitment to the

highest standards of general, cosmetic, and reconstructive dentistry. He is currently serving patients' dental needs at his private dental practice in Flower Mound, Texas. "We believe that good oral health is the key to a person's overall health and well-being. We care about each of our patients as individual people and work to help them achieve their goals and transform their lives" as stated on the dental practice's website.

Dr Stewart is also the CEO of The Stewart Center. The Stewart Center was established in 2014 by Dr Stewart and Dr Craig Herre. It was their desire to create a comprehensive course that would give doctors a logical, step-by-step approach to rehabilitating even the most broken-down dentition while prioritizing minimally invasive techniques and staying free of the limitations put on them by insurance companies.

A biologic and systems-focused dentist, Dr Stewart believes that the focus of treatment should be to achieve and maintain a healthy and functioning chewing system. He feels that a healthy dentition is only a part of a healthy body, and so he also gives emphasis to treating problems that are often caused by dental problems, such as neck and shoulder pain, clenching and grinding, as well as headaches.

Dr. Stewart is one of fewer than 200 dentists worldwide to have completed the entire curriculum of the Orogathic Bioesthetics International (OBI) Foundation. Since 2006, he has been serving on the teaching faculty at the OBI Institute.

Dr Stewart earned his Doctor of Dental Surgery degree from Baylor College of Dentistry in 1989. He has also studied extensively at the Pankey Institute for Advanced Dental Studies and completed the Advanced Esthetic and Master Esthetic courses at the Las Vegas Institute for Cosmetic Dentistry.

Dr Stewart lectures extensively, teaching dentists across the country and around the world about advanced restorative and cosmetic dentistry. He has also published numerous articles in professional journals. Dr Stewart currently serves as a Mentor at the Schuster Center for Professional Development in Scottsdale, Arizona.

Dr Stewart is a former president and current board member of the Texas Academy of Cosmetic Dentistry. He is also a member of the Orogathic Bioesthetics International, the American Academy of Cosmetic Dentistry, the American Dental Association, and the Academy of General Dentistry. Furthermore, he is a Fellow of the American College of Dentists.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. As a general & cosmetic dentist, Dr Stewart has the skills needed to complete an array of commonly performed dental procedures that are simple or complex in nature. "I became a dentist out of a sincere desire to help people. My sister worked for a dentist when she was in high school and I spent time in his office. He was a kind, caring man and he really enjoyed what he did. I didn't think much about then, but I know he had a positive influence on me. When I went to college, I joined the Health Care Pre-Professional Club and there, I was influenced by professors and some wonderful friends I made who were pre-dental students" as stated by Dr Stewart.

Dr Stewart loves spending his free time with his two daughters, Alexandra and Elisabeth. He loves music and sings and plays his guitar daily. Dr Stewart is also an avid fitness competitor and has competed in bodybuilding physique division competitions.
