Plainfield, Jul 29, 2019 (Issuewire.com) - Make \$1000 a month or more renting out your spare car with Pinnico Rental Cars! Just as you can rent a room or even your entire home through Airbnb, you now have the option to do the same with your car! With thousands of drivers looking for vehicles to rent to drive for rideshare or delivery services, the demand for vehicles is extremely high. Illinois is a hotbed of demand for vehicles!

[Pinnico Rental Cars](#) is a premier supplier of rental cars for drivers for [Uber](#), [Lyft](#), [DoorDash](#), Via, Grubhub, Amazon Flex, Postmates, Instacart and more! With most drivers renting on a long-term basis, the provides a consistent income for people who want long term income renting out their cars. The rentals can be short or long term and hosts that rent their cars can determine the availability of their vehicles. Maintenance and insurance are included in all rentals.

To rent your vehicle, it must be 2005 or newer and have at least 4 doors. The transmission should be automatic and no dents or rust on the vehicles. Newer cars tend to rent better, but there is demand for

all types of vehicles as a lot of drivers to delivery for services like UberEats, Doordash, etc. so are just looking for the most economically priced rentals. All drivers are verified and insured.

[Pinnico](#) is a premier peer to peer rental service for rideshare and delivery drivers. Vehicle owners get paid immediately after the renter drops off the car or each time the renter extends the rental which is usually daily. It is a great opportunity for passive income.

Probably the biggest upside to renting your car out is the tax deduction. The IRS grants around \$0.55 per mile (depending on the year) as a deduction. So, every two miles your renters drive will earn you more than \$1 in tax deductions. And these renters, especially the [Uber](#) and Lyft drivers, can drive anywhere from 200 to 1,000 miles a week. This can quickly add up to a \$20,000 or more tax write-off in a year.

If you are looking for a way to make at least \$1000 a month or more each month without taking a lot of time or energy, Pinnico Cars is a great option as they also offer incentives to the owners and renters. Owners who are already renting out their car on another platform and bring their renter to Pinnico get to keep an additional 5% on the cost of the rental! Just one of a few new ways to make income in the gig economy.
