DANIEL BORGES

Boston, Jul 8, 2019 ([IssueWire.com](http://www.IssueWire.com)) - In a loud lion like roar Daniel Borges screams in his music. Raised by devoted but divorced parents Domingo Borges and Maria De La Cruz Daniel the oldest of 3 boys works and works like his parents did. It's no secret that Daniel Borges is hard to figure out but with his book *The South Side Kingdom* many answers are found about the greatest and most important figure from the South End of Boston. The loss of his brother Chuy at only 25 in 2016 in his words "OBLITERATED" his spirit and still to this day the guilt of not speaking to his beloved brother haunts him everyday. Once an executive in healthcare and education. Daniel lost his career over fighting a court case due to an alleged Boston drug lord in fear of Daniel's ferocious reputation lying to police about threats and Daniel being a high ranking Mass Ave Hornet gang leader. All lies but after 2 years of fighting for his freedom Daniel completed the Recovery with Justice program having all charges dropped. Learning a valuable lesson Daniel came out of his ordeal a new man focused and more determined to do right. This book provides an inside look into the mind and thoughts of Daniel growing up and surviving.
