

## Abu Dhabi City Municipality launches initiatives for smart cities and AI

**Abu Dhabi, Aug 29, 2019 ([IssueWire.com](http://www.IssueWire.com))** - Over 60 government advisors and experts from private entities gathered during the Abu Dhabi Smart City stakeholders meeting to discuss Abu Dhabi's ambition on becoming a global leader in Artificial Intelligence (AI), Internet of Things (IoT), and Emerging Technologies.

"We aspire to take everything to global competitiveness. Today, we have cities competing, aspiring, and becoming the smartest in the world. This means that we are raising the challenge and growing our ambition here in Abu Dhabi. So how can collaboration take place between the public and private sectors to achieve advancement in the Abu Dhabi emirate. It is not a simple task, no single entity can achieve the smart city title alone. All entities, whether public or private, should collaborate." *H.E. Mr. Salem Almemary, Executive Director of Municipal Services Sector - Abu Dhabi City Municipality*

"Everyone has initiatives and projects. Today, Abu Dhabi takes the lead in terms of knowledge in addition to forming a committee for the receipt of initiatives and projects from both the private sector and government entities, particularly in this field which is considered." *Eng. Sami Alhashmi, Director of Infrastructure Technical Support Division - Abu Dhabi City Municipality*

Ahead of the Abu Dhabi Smart City Summit which is taking place on 29-30 October 2019 in Abu Dhabi, ACM – Advanced Conferences and Meetings organized the Abu Dhabi Smart City stakeholders meeting to discuss and determine ideas that can be implemented and used to prepare a workshop for the Summit.

“We hope for the Summit to enable the achievement of common projects, whether by upcoming with something joint or doing something. This is not called the Abu Dhabi Municipality Summit, but rather the Abu Dhabi Summit. The municipality is a driver indeed.” *Eng. Ahmad Abdoulsamad Alhamadi, Director of Information Technology Department - Abu Dhabi City Municipality*

The 2-day summit is being held under the patronage of **Abu Dhabi City Municipality** and will be a platform for government and private entities to collaborate and set foundations in creating Abu Dhabi a smart city.

Johnson Controls, Fortinet, TECHWAN, Nanjgel, Consent, eSolutions, NIKKON, Scientech LLC, Hytera, and Tahaluf Al Emarat **have already confirmed as sponsors and will be present to showcase their products and solutions** at the Abu Dhabi Smart City Summit.
