

Get to know Orthodontist Dr. Gregory DeFelice, who serves patients in New Jersey.

Gregory DeFelice, DMD, an Orthodontist with Cedar Run Orthodontics / DeFelice Orthodontics / Brickworks Dental

New York City, Sep 27, 2019 (Issuewire.com) - Get to know Orthodontist Dr. Gregory DeFelice, who serves patients in New Jersey.

With years of experience in orthodontics, Dr. DeFelice is currently serving patients' dental needs at three

locations in the State of New Jersey, including Cedar Run Orthodontics in West Creek, DeFelice Orthodontics in Hammonton, and Brickworks Dental in Cape May Court House. These three dental practices are all made up of teams of people who truly care about giving patients an orthodontic experience they will never forget. Dr. DeFelice and his exceptional staff strive to provide a comfortable, welcoming environment for patients of all ages by providing early orthodontic treatment for young children, helping patients resolve issues with retainers, Invisalign®, and other types of braces, as well as utilizing cutting-edge dental technology to diagnose and treat severe snoring and sleep apnea conditions.

Growing up in the Philadelphia suburbs, Dr. DeFelice earned his bachelor's degree, graduating Magna Cum Laude with general university honors, from LaSalle University in Philadelphia. He then graduated second in his class from Temple University School of Dentistry with his Doctor of Medicine in Dentistry degree. He completed his orthodontic training and earned his master's degree from the University of Illinois at Chicago, where he currently lectures to orthodontic residents.

Aside from being a board-certified Diplomate of the American Board of Orthodontics, he is a member of the American Association of Orthodontists and the Middle Atlantic Society of Orthodontists.

Orthodontics and dentofacial orthopedics, formerly referred to as orthodontia, is a specialty of dentistry that deals with the diagnosis, prevention, and correction of malpositioned teeth and jaws. As an orthodontist, Dr. DeFelice is responsible for locating problems with the positioning of patients' teeth and with their oral development. He utilizes the most advanced procedures and equipment available to ensure that every patient achieves a healthy and beautiful smile. "When I look at a patient, I don't see their crooked teeth—I see the potential they have to achieve an awesome smile," he said.
