

Jack Poy Yee, MD, FACS, a General Surgeon with CareMount Medical

Get to know General Surgeon Dr. Jack Poy Yee, who serves patients in New York.

New York City, Sep 28, 2019 (IssueWire.com) - Board-certified general surgeon Dr. Yee is affiliated with CareMount Medical in Cortlandt Manor and Fishkill, New York. CareMount Medical is the largest independent multi-specialty medical group in New York State, providing comprehensive medical care of the highest quality to over 640,000 patients in more than 45 offices throughout Westchester, Putnam, Dutchess, Columbia, and Ulster counties and New York City. Founded in 1946 as Mount Kisco Medical Group, CareMount has grown from six physicians to over 600 physicians and advanced practice providers with over 40 specialties, making the group a seamless “one-stop-shop” for patients. CareMount Medical is affiliated with world-class organizations, including Massachusetts General Hospital, Mount Sinai Health System, and Memorial Sloan Kettering Cancer Center.

Dr. Yee is also affiliated with NewYork-Presbyterian Hudson Valley Hospital - a fully accredited general, a not-for-profit 128-bed hospital located in Cortlandt Manor. Dr. Yee earned his medical degree from the New York University School of Medicine in New York City, New York in 1979. He then went on to complete his residency at Saint Vincent Catholic Medical Centers in New York City in 1984.

To stay up to date in his field, Dr. Yee is a Fellow of the American College of Surgeons. He is also a member of the New York County Medical Society. Dr. Yee is board-certified in surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

General surgery is a surgical specialty that focuses on abdominal contents including oesophagus, stomach, small bowel, colon, liver, pancreas, gallbladder, appendix and bile ducts, and often the thyroid gland. A general surgeon performs a wide range of abdominal surgeries for many forms of intestinal and abdominal wall neoplasms, gallbladder disease, gastric and pancreatic disease. They follow the patient through critical care and surgical recovery all the way to outpatient care.
