

Mac Brothers – Your destination for Catering Equipment

Western Cape, Sep 26, 2019 (IssueWire.com) - [Mac Brothers](#) have always strived to help their clients achieve success through proper use of their knowledge, collective skills and vast experience in the foodservice industry. A leading producer of quality catering equipment, the company boasts of state-of-the-art production units, housing the latest panel blender, laser cutters and other manufacturing and assembly machinery. The company believes in surpassing the expectations of its clients by offering them great products and value.

Products offered by Mac Brothers:

Mac Brothers offers three distinct product ranges to its customers. These include:

1. Catering Equipment – The company initially started off as a manufacturer of stainless steel equipment for catering. The company offers its products to various clients in the hospitality industry such as hotels, restaurants, canteens, hospitals, wine estates and more. The company offers a complete catering solution including equipment like coffee machines, bakery equipment, dishwashers, ventilation and extraction equipment, grills and flat tops, bespoke cooking ranges, ice machines, ovens, refrigerators and much more.

2. Mac-Care Range – The Mac-Care range offered by the company consists of medical sanitary ware, laboratory and mortuary equipment and washroom accessories. These are curated after consultation with architects, engineers and end-users, to enhance safety and hygiene. Some of the products in the Mac-Care range include – various kinds of sinks, tables, storage systems, grab rails and others.

3. Fire Suppression Equipment – Mac Brothers are the only importers of fire protection products from the Amerex Range, for the Sub-Sharan region. The company offers advanced fire suppression products for kitchen, industries and vehicles along with standard fire prevention solutions and extinguishers.

Services Offered By Mac Brothers:

- **Designing services** – To create a world-class facility, Mac Brothers provides a food service design solution for central kitchens and local and international food chains. Their designing services include evaluation of the site, schematic depiction of 3D elevations and layout design and detailed designing with MEP layouts. They also create an overview of the site work.
- **Technical services** – Mac Brothers serves as a one-stop-shop and offers complete technical assistance starting from the conceptualization to the installation. They also provide round the clock technical assistance after the installation is complete. They also stock and supply a vast range of spare parts.
- **Professional maintenance services** – Mac Brothers offers an excellent, round the clock maintenance service, 365 days a year. They promise to respond within 24 hours in Durban, Cape Town and Johannesburg. After-sales services and maintenance are provided throughout South Africa, offering speedy repair turnaround times. They also offer tailor-made maintenance schedules for their clients.
