Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, extremity adjustments, manipulation and other techniques to manage patients’ health concerns, such as neck pain, back pain and other joint injuries like shoulders and ankles. They aim to improve patients’ functionality and quality of life by properly aligning the body’s musculoskeletal structure and enabling the body to heal itself without medication or surgery.

Dr. Mally attributes his success to his father who taught him to treat others the way that he himself would want to be treated. His family is his inspiration, they fuel his passion for life. Dr. Mally is an avid martial artist, sprinter, and weightlifter.
