

# Ready Set Connect - A New Online Therapy Software for Connecting Clinicians with Special-Need Kids

Ready Set Connect Is a Fully Integrated Platform for Pediatric Clinicians and Educators

Fullerton, Sep 19, 2019 ([Issuewire.com](http://Issuewire.com)) - Harsha Rana, a Pediatric Occupational Therapist, launched [Ready Set Connect](#) – a platform that connects therapists and specialists with special-need children.

After seeing the struggles and challenges that parents, caregivers, and teachers face while trying to meet the needs of a special child, Harsha came up with the idea of connecting therapists with special-need kids. She shared her idea of building such a platform with Ajay Prasad, a marketer, and investor who invests in startups. As a result, Ready Set Connect was launched.

Ready Set Connect is HIPAA-certified fully integrated platform that helps pediatric clinicians effectively perform online therapy sessions. This software also helps educators teach students through online interactive classes. It helps keep notes, progress data, and appointment reminders all in one place. Easy to set up and use, this intuitive platform can be accessed from any device and browser.

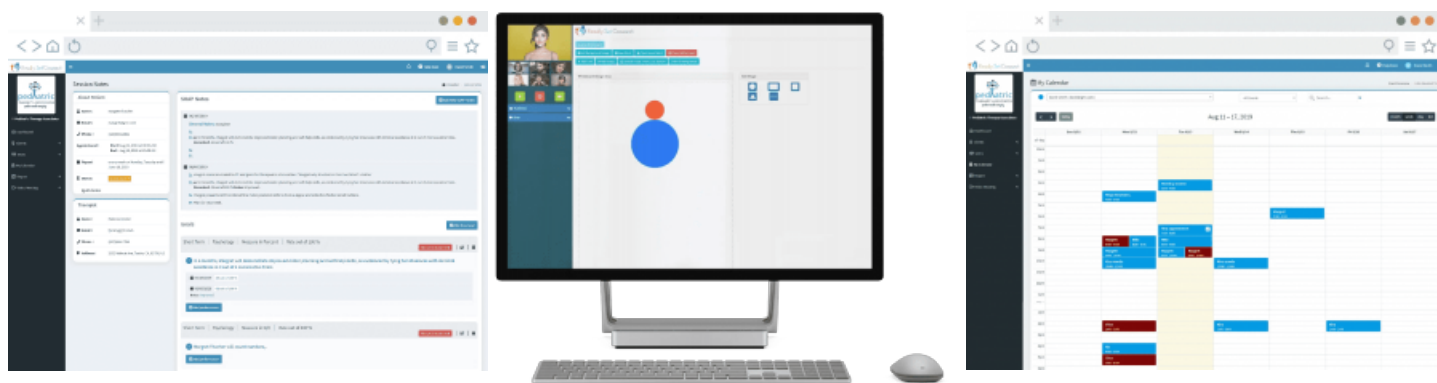

Ready Set Connect helps occupational therapists, speech therapists, physical therapists, behavior ABA providers, psychologist, and small clinics provide better care and treatment to their patients. Live video interventions provide improved communication and the ability to engage in live interactions with patients from any place.

*“Having the right help, that is reachable, and available at the right time can make all the difference between a child who struggles and a child who thrives!”*, said Harsha on the launch of Ready Set Connect.

*“I am excited about this platform. It is designed to help people who most need it”*, said Ajay on the completion of the project. He further added, *“My wife and I feel like this is our best investment to date. If this platform can help even one kid, the investment by us will be paid for.”*

## Company Overview

Ready Set Connect is HIPAA-certified online therapy software that connects clinicians and specialists with special children. The Founder and Chief Executive of Ready Set Connect, Harsha Rana has worked with children and families as a Pediatric Occupational Therapist and understands that meeting the needs of special children at the right time is important.
