

## Automotive Interiors Expo Exhibitor 2019

**Novi, Oct 19, 2019** ([IssueWire.com](http://IssueWire.com)) - THERMTEST, INC. will be exhibiting at the upcoming show this month at booth A117 at the 2019 Automotive Interiors Expo, being held at The Suburban Collection Showplace in Novi, October 22-24, 2019.

Thermtest will showcase their TPS-EFF [Thermal Effusivity](#) Meter to conduct live testing of auto interior materials. The Transient Plane Source TPS-EFFusivity Meter is a portable meter for direct determination of thermal effusivity of textiles, fabrics and solids, in accordance with ASTM D7984-16.

### About Automotive Interiors EXPO

Automotive Interiors Expo, Novi, Michigan 2019, is about quality, color, texture, touch, feel and innovation. The expo shows a wide range of fabrics, acoustical materials, shape-forming materials and foams, fasteners and adhesive systems, lighting and more. This is the solutions show with a tremendous number of innovative products to see!

### About Thermtest, Inc.

[Thermtest](#) is a global company that has been advancing the measurement of thermal conductivity, thermal diffusivity, and specific heat for more than a decade. Their unique combination of advanced laboratory thermal conductivity instrumentation, portable meters, and corresponding accessories, has enabled Thermtest us to offer testing solutions to fit most any type of sample, testing application or budget.
