

## Big financial relief for individuals holding aadhar claims Credit Pay

***Credit Pay***

*Because we care*

**New Delhi, Oct 2, 2019 ([Issuewire.com](http://Issuewire.com))** - Big financial relief for individuals holding aadhar card in India. Indian Venture Credit Pay solves all their needs. Credit Pay, an Indian venture has taken move of fulfilling the basic fund requirement of everyone holding an aadhar card.

"It's very painful to see people struggling financially and banks and other sources doubting them while

funding even if they have a verified address. It feels like a bank and other sources doing clear insults of the public by not proving them credit money. So we landed up with this to provide everyone the right they deserve. India is my family and I do not doubt my family members." Says Mr. Sudeep Raj, founder of Credit Pay app.

For the SME, startups, personal finance- credit pay app is the solution that covers it all.

It is proving quick credit facilities that get verified within 5 minutes, all it takes is the process of going through all required app formalities and money gets credited as soon as signup completes. Credit Pay stands forth for businesses as well as individuals. As to individuals, it provides a term credit of 40,000 INR while too small businesses and shops, the term credit provided are 50,000 INR.

In exchange for the service, the company takes a nominal monthly charge only.

Mr. Sudeep initially was handling an event management company spread in 4 big Indian cities due to which he used to have a hectic travel schedule, meeting with all class of people and the biggest thing he got is an opportunity of observing society from very deep.

Although it proved not an easy journey for him to cover as such ventures involves huge financial risk, yet he grabbed big courage and ended up at opening this platform for benefiting all.

From the very initial time it started, the app is getting tremendous traction from the market and getting huge hits.

The company's initial target of taking it to a crowd of 1.5 Million people is quite close to achieving and people are expecting to hear bigger values by end of the current financial year.

"We also have huge faith in our nice client Mr. Sudeep Raj who believes in simple living higher thinking to accomplish this goal of taking this app to everyone. While making this application, we were sure that the app will acquire tremendous acceleration in a short period and so we coded it in the same way to bear server load and a huge number of hits and our idea worked. We are happy to see this thing growing and getting happy design and user experience reviews." Says Mr. Sumit Ranjan, CEO of Webgax. The company that developed the entire software for Credit Pay on contract.

This app got Developed by Webgax, an Indian venture well known for product R&D and software services.

In a press conference organized in Noida last year, Mr. Sudeep while presenting the concept was found overwhelmed with emotions when a poor person received cash for his daughter's marriage and thanked him with wet eyes.
