

Franklin A. Dentremont, DMD, a Cosmetic & Restorative Dentist with Dentremont Dental Services

Get to know Cosmetic & Restorative Dentist Dr. Franklin A. Dentremont, who serves patients in Gulf Shores, Alabama.

New York City, Oct 9, 2019 (Issuewire.com) - Specializing in cosmetic and restorative dentistry, Dr. Dentremont is known for his excellence and attention to detail. He is currently serving patients' dental needs at his private practice, Dentremont Dental Services in Gulf Shores, Alabama. Since its establishment in 2015, Dentremont Dental Services has been on a mission to remain true to the common core value of dentistry: the patient's total dental health. Some of the services provided by the dental practice include crowns, bridges, dentures, braces, veneers, and more.

In 2017 Dr. Dentremont enrolled in a fellowship program with the American Academy of Facial Esthetics (AAFE) and is certified to administer botulinum products ("Botox"), dermal fillers, and non-surgical

thread lifts. His fellowship program takes him all over America to learn the latest techniques in facial esthetics.

In addition to his work in private practice, Dr. Dentremont is an entrepreneur and team builder with Jeunesse International. Founded in Orlando FL in 2009, Jeunesse International manufactures and distributes weight management, nutritional, energy and performance, and skin care products all designed to enhance our bodies to maintain a youthful condition inside and out.

Growing up in the state of Maine, Dr. Dentremont graduated high school as salutatorian in East Millinocket and attended Boston University on a scholarship. He then went on to earn his DMD degree from the prestigious Tufts University School of Dental Medicine in Boston, Massachusetts. He relates that he was in a dental class of about 150 students drawn from over 4000 applicants. After 20+ years practicing dentistry in Maine, he opted to move to the warmer climate of Alabama's Gulf Coast where he has spent the past 16 years helping residents of these communities to improve and maintain their smile and dental health.

Dr. Dentremont has previously served both as a member and an executive of the American Dental Association and the American Academy of Facial Esthetics. Besides his certification in the AAFE, he holds certifications in Invisalign and Six Month Smiles orthodontics, rotary endodontics, and Implants - to name a few.

Dentistry is a science which imparts a great emphasis on the doctor's ability to utilize his/her hands. Dr. Dentremont attributes his success to God for giving him the gift of healing hands and to his parents for teaching him positivity and compassion. His father -Frank Sr- was raised in a family of 11 children, served in Patton's army in WW2 (including the Battle of the Bulge), graduated as an engineer on the GI Bill, and worked for over 30 years as an engineer in a paper mill in Northern Maine. His mother, Ramona, was the valedictorian of her high school class in Northern Maine and a college graduate of the University of Maine. She taught Spanish for some time before becoming a full-time mother.

Cosmetic dentistry is generally used to refer to any dental work that improves the appearance (though not necessarily the functionality) of teeth, gums and/or bite. Restorative dentistry refers to management and procedures that a dentist performs to keep a patient's mouth healthy and functional. These procedures include putting in dental implants, dentures, fillings, and crowns. Throughout his career in cosmetic and restorative dentistry, Dr. Dentremont has also cared for underserved children throughout the state of Alabama, including Mobile, Montgomery, and Dothan.

In his spare time, he enjoys cycling, swimming and scuba diving. He enjoys living and working in Coastal Alabama - especially Gulf Shores and Orange Beach. The area has enjoyed a huge influx of people from all over the USA in recent years and Dr. Dentremont is happy to accommodate them.

Dr. Dentremont's slogan is "All You Need is Love... and a Good dentist". The citizens of Coastal Alabama can certainly feel assured that their dental smile is in good hands.
