Russell Sidney, Managing Director of The Lamp Factory London, comments, *“We always love to speak directly with our clients and prospective clients over the phone or meet face-to-face. This has helped us to forge some really strong relationships with our clients.*

But we have received quite a bit of feedback from clients asking if they could ever have the option to order their bespoke lamps online. After giving it some careful thought, we decided to go for it and create an e-commerce element to our website which enables clients to order their bespoke lamps online.

Initially, it will only be a selected range of our lamps available. But we are excited to see how clients use the facility and make their buying process easier.

We will always be at the other end of the phone for advice and technical questions, due to the bespoke nature of our lamps. But for the clients who wish to perhaps re-order a previous specification or for the clients who simply know what they want, the option for them to create and purchase directly from our website.”
