

## Motorz TV C10 Build To Be Featured At 2019 SEMA Show

# MOTORZ<sup>®</sup>

**San Diego, Oct 8, 2019** ([IssueWire.com](http://IssueWire.com)) - Duke Networks, LLC, publisher of the hit Automotive Improvement® television series “Motorz” ([www.motorz.tv](http://www.motorz.tv)), is bringing its 1969 Chevrolet C10 “Blue Moon” project vehicle to the SEMA Show ([www.semashow.com](http://www.semashow.com)) in Las Vegas, NV from November 5-8, 2019.

The project truck ([www.bluemoonC10.com](http://www.bluemoonC10.com)), built-in partnership with Vintage SpeedShop ([www.vintagespeedshop.tv](http://www.vintagespeedshop.tv)) and Painkiller Customs ([www.painkillercustoms.com](http://www.painkillercustoms.com)) in Arizona for the TV show, will be featured at the Wastegate Technologies, Inc. [booth #61016](http://www.wastegate.com) ([www.wastegate.com](http://www.wastegate.com)) where it will be used to demonstrate new wrap films in its current partial build state.

Chris Duke, owner of Duke Networks and host of Motorz TV said, “I’m thrilled to bring a partial build to this year’s SEMA Show, and honored to be working with such amazing partners and builders who are at the top of the industry. Fans of the show will be able to watch the step-by-step of the build on the TV show, then go to the SEMA Show to see it in its current state. Afterward, they can continue to watch the build in future episodes, then come back to the 2020 SEMA Show to see it again, fully completed.”

Current product sponsors include Year One, Craftsman, Katzkin, Early Classic Enterprises, Sikkens, Old Air Products, Flex-A-Lite, Precision Replacement Parts, Dynacorn, POR-15, Vibro Solution, and LMC Truck.

“Working with Chris at Motorz has been an incredible opportunity for my business,” said Britt Hall, owner of Vintage SpeedShop. “His 50th birthday build is coming along smoothly thanks to great products from our sponsors, and I cannot wait to show his C10 off in its current state at this year’s SEMA Show!”

Mike Galindo, owner of Painkiller Customs said, “Even though the build won’t be complete, it will look “sik” with new paint from Sikkens (AkzoNobel), wheels and tires, and all-new sheet metal. It is such a unique build for SEMA, and I couldn’t be more excited to be a part of this historic C10.”

### **About Duke Networks, LLC**

Based in San Diego, California, Duke Networks specializes in video production services ranging from television to corporate video needs. Motorz TV, established in 2008, is currently in its 8th season with 100 episodes. Available on television to over 180M TVHH in the U.S. and Canada, Amazon Prime Video, Roku, and more. Motorz is hosted by Chris Duke who shows you how to wrench on your vehicle in a typical garage setting using common tools.

## **About Vintage SpeedShop**

Based in Queen Creek, Arizona, Vintage SpeedShop ([www.vintagespeedshop.tv](http://www.vintagespeedshop.tv)) specializes in building 1967-1972 Chevy and GMC trucks.
