Houston, Oct 31, 2019 ([Issuewire.com](http://Issuewire.com)) - Texas Author Bryan DeWeese Promotes His Sci-fi Adventure - Theocrates and the Crystal Cavern

Author Bryan DeWeese is pleased to announce the promotion of his sci-fi space opera, Theocrates and

the Crystal Cavern.

One day, out of the blue, Theocrates began hearing voices. The “voices” wanted him to go to the Crystal Cavern. No one had been to the Crystal Cavern in over seventy years! But the Fate of Terexia was in the balance and Theo knew, somehow, that the voices were correct. He had to go. He had to find a way to repair the Rift that had formed between his world and the planet Tera, in a far off galaxy. The first step was to get permission, but even asking could be viewed as a criminal offense. Little did Theo know that these voices would catapult him above, below, and across space, on an adventure that would change his life forever.

Theocrates and the Crystal Cavern is available for purchase in print and ebook formats.
