

A Tale of Two Great Republics Founded on the Principle of Idealism

Barrister and history buff takes a close look and compares two of the Greatest democratic republic in civilization

Rome and America:
**THE GREAT
REPUBLICS**

*What the Fall of the Roman Republic
Portends for the United States*

WALTER SIGNORELLI

Pittsburg, Nov 22, 2019 (IssueWire.com) - Separated by two millennia, the United States and Ancient Rome share plenty of parallels: both were founded on the principle of idealism, were stalwart thresholds of democracy, and revolutionized modes of governance for their contemporaries and antecedents. But in Walter Signorelli's [*Rome and America: the Great Republics*](#), he goes even further in-depth, taking a closer look at the founding of the republics, including the environments they were founded in, the mindsets of its people, and even the military campaigns the governments undertook. Walter also describes the weaknesses of each of the nations, which led to the decline of Ancient Rome and the problems of present-day United States.

Walter Signorelli is a practicing defense attorney, police practices consultant, and adjunct professor of law at New York's John Jay College of Criminal Justice. He had also served in the New York City Police Department for thirty-one years, moving up from police officer to inspector. He's also authored three other books: *The Crisis of Police Liability Lawsuits*; *Criminal Law, Procedure, and Evidence*; and *The Constable Has Blundered*.

Walter's work will be exhibited at the Miami Book Fair Street Fair weekend, to be held at Miami Dade College (Wolfson Campus) in downtown Miami this coming November 22-24 at the Authors Press booth. To get the latest update on authors, like and follow Authors Press on Facebook and Twitter.
