

## **Author Explains Music Fundamentals and Theories in Edifying New**

Enjoy, enjoy, and create music with the help of the author's expert guidance

DIOGENES ALBERTO RIVERA

# HARMONY TO ALL

For Professionals and  
Non-Professional Musicians

**Pittsburg, Nov 20, 2019** ([IssueWire.com](http://IssueWire.com)) - Author Diogenes Alberto Rivera joins the Miami Book Fair with his instructive new book, [\*Harmony to All: For Professionals and Non-Professional Musicians\*](#).

In *Harmony to All: For Professionals and Non-Professional Musicians*, author Diogenes shares that since Pythagoras developed the musical scale (C, D, E, F, G, A, B, C), it had been necessary to clarify how much more this simple scale means. That is what the author tries in this book. To illuminate the path of music or musicians.

The author expands on this important principle as well as explain the other major theories of music. Music might look like a mystery to many, but Diogenes asserts that when one learns the simple truths and basics in his book, musical theories become meaningful and understanding of music will be so much easier.

Diogenes's work will be exhibited at the Miami Book Fair Street Fair weekend, to be held at Miami Dade College (Wolfson Campus) in downtown Miami this coming November 22-24 at the Authors Press booth. To get the latest update on authors, like and follow Authors Press on Facebook and Twitter.

More information about the author and the event are available at [www.authorspress.com](http://www.authorspress.com).

# HARMONY TO ALL

Since Pythagoras developed the musical scale (C D E F G A B C), it has been necessary in order to continue the evolution of music, to clarify, or to enlighten the path of musicians.

Music might look like a mystery just because of that lack of that simple and important true. And that simple true is that in every single major scale, there are intrinsically – its minor seven scale (and thus the chord), its major seven scale, its minor scale, and its diminished scale.

There are five figures or diagrams, which save hundreds of words and teach you how to master all the harmony scales and thus chords.

Enjoy, enjoy, and create your own music.

Born in April 26, 1960 in Santafe of Antioquia, Colombia.

Grew up in a family of musicians, with his father as a singer and director of his own band, Alberto Rivera started to play with professional musicians since his very youth. Came to America in 1996, went to college and in 2012 got an associate degree in Electronic Engineering.
