

Elena M. Alexander, DDS, a General Dentist with Alexander Family Dental

Get to know General Dentist Dr. Elena M. Alexander, who serves patients in Queen Creek, Arizona.

New York City, Nov 25, 2019 (Issuewire.com) - With 25 years of dental experience, Dr. Alexander is an award-winning dentist with a reputation for providing gentle and personalized care that her patients trust. She believes in a total health care approach and involving the patient in the decision-making process. Seeing as how not every mouth is the same, she enjoys developing a treatment plan that is

personalized to each patient's unique situation.

Her private practice, Alexander Family Dental, is located in Queen Creek, Arizona. There, Dr. Alexander and her team understand the value of good dentistry and educate their patients on the benefits. They feel it is both an obligation and an opportunity to present the best dentistry possible for each patient, which is why they continuously strive to go above and beyond in providing quality dental care and in doing so, build long-lasting relationships with patients.

Having spent time as a patient in the dental chair, Dr. Alexander's love for dentistry developed during her own dental experience as a teenager. This, in turn, led her to earn her Doctor of Dental Surgery (DDS) degree from Creighton University in Omaha, Nebraska in 2009.

Among her many achievements, she has received the Ridder Operative Award, a Certificate of Merit for Leadership at One World Clinic, and the Holbrook Scholarship. She is also actively involved with the American Dental Association, the Arizona Dental Association, and the Academy of General Dentistry.

Furthermore, Dr. Alexander is an Invisalign® Gold Provider for 2019. The level given to a dentist's Invisalign® status is determined from their overall experience and the relative number of patients they have treated with Invisalign®. The levels range from bronze to VIP.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. General dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy. With first-hand experience, Dr. Alexander fully understands what her patients are going through, which is why she aids in making their experiences as comfortable as possible.
