

Gophr App Releases First Service

Gophr Direct lets you shop local this holiday season

Lake Charles, Nov 13, 2019 (Issuewire.com) - Gophr App announced Gophr Direct this week, a new service from the delivery startup. Gophr Direct allows your favorite local stores to offer same-day and expedited delivery, simply place your order with a participating store like you always do and request delivery. The store will add the cost of delivery to your order and send that delivery through to Gophr Direct.

“Gophr Direct will be a game-changer for our local merchants,” says Warren Vandever, Founder & CEO at Gophr App. “We hate to see the mom and pops unable to keep the doors open, and are doing everything possible to give them a fighting chance against e-commerce giants.”

Gophr’s first deliveries came from Cayenne Marketing, and since then they have made several deliveries to Lake Charles and surrounding areas. Some other participating stores are:

- Niche Creative Studio
- Papersmith
- House of Sole
- Minuteman Press
- Accessory Zone
- Uniformly Fit

Gophr Direct is now servicing areas from Jennings to Vinton, and Cameron to DeRidder as well as the Lake Area. For the complete list of stores available with Gophr Direct see them at

<https://gophr.app/direct>.

About Gophr: Founded in 2019 and based in Lake Charles, Louisiana is a new startup in the last mile delivery space. Gophr brings the power of e-commerce to brick-and-mortar business and the convenience of the Internet to the customer. From everyday retail items to industrial equipment – Gophr delivers local solutions. As of November 2019, Gophr released its first service, with the customer app to follow in early 2020.
